Customer review.

“I haven't tried it yet, but it seems good quality and comfortable to wear” - Niko

FAQ.

What color is the best seller?

The multi-colored swimsuit is our best seller but the Santorini (blue) remains a safe bet.

What size to take?

We generally recommend doubling the quantities on intermediate sizes (M, L, XL). If you do not want to take all the sizes these will be very suitable.

Is there a minimum purchase?

We do not impose a minimum purchase on swimsuits but it is always interesting to offer several colors.

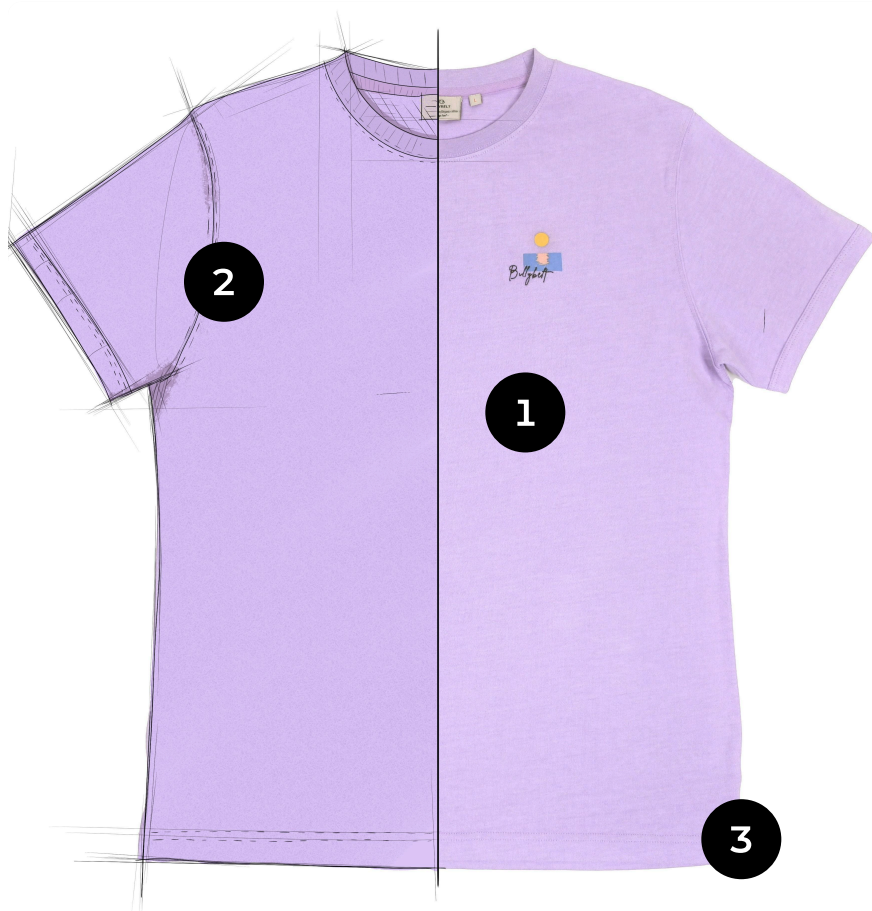

THE T-SHIRTS.

Customer review.

“Quality T-shirt, beautiful cotton and soft color that will go well with many outfits.” - Sylvie

FAQ.

Which range of t-shirts to choose?

Garment Dye (TSG) t-shirts are perfect for summer because they are lighter. On the contrary, Heavy t-shirts (TSH) will be more suitable for fall or winter because they are thicker.. On the other hand, Vintage (TSV) and Authentique (TSA) correspond to all seasons thanks to their intermediate weight..

The Authentique t-shirt is quite classic while the Vintage will be a little more trendy.

How do the t-shirts fit?

Our t-shirts fit normally and straight, you can recommend to your customers to take their usual size and if they hesitate, take the next size up.

THE SWEATSHIRTS.

Customer review.

“Nothing to say except that it is perfect. Color identical to photos. Very pleasant and soft material effect to wear.” - Patric

FAQ.

How do sweatshirts fit?

Sweatshirts fit fairly normally but if your customer is hesitant, we recommend that you offer them a size larger than their usual size.

What is the difference between Fleece and French Terry?

Fleece is a wide knit fabric washed so that it shrinks. The resulting material is light, warm and breathable. It dries very quickly and can be compared to polar material.

French Terry is a more or less thick cotton and spandex jersey with a terry backing.. This material is very warm and gives a slightly more sportswear look.

THE SHERPAS.

Customer review.

“Outward looped fleece sweatshirt. Keeps its promises for the chilly.” - Blackai

FAQ.

How do sherpas fit?

Pullover or zip-neck sherpas (SHE01 to SHE06) fit normally. Sherpa jackets have a slightly more oversized cut and run slightly larger. We advise you to offer your customers a smaller size for a more fitted effect.

With or without sleeves?

The sleeveless sherpa jacket is ideal over a shirt or sweater, it will dress up any look.

The jacket with sleeves is . more casual and can be worn as a sweater or as an outdoor jacket.

Customer review.

“It’s a very nice product, the quality, the cut and the price!” . - Didier

FAQ.

How to wear the denim shirt?

Thanks to its straight cut, the denim shirt can be worn alone, under a sweater or as an overshirt. It can be sold in all seasons. Please note: khaki and black are slightly thicker than raw and bleach.

What is the piece dyeing technique?

Garment Dye is a technique which consists of dyeing the garment once it has been made. This gives the fabric a distressed, slightly faded look, with subtle color variations and a soft feel.

THE OVERSHIRTS

REFERENCE: **ON**

B2B €35.60

B2C €89.00

Customer review.

“Product conforms to the description and of good quality. Good value for money” - Sandra

FAQ.

When to highlight the overshirt?

Easy to combine, the overshirt is an essential piece of men's wardrobe for mid-season. Halfway between a warm shirt for winter and a light jacket in autumn or spring.

What fabric is used?

The Punta di Roma stitch is a double jersey: a knit composed of two knitted stitches. Therefore, this quality is slightly heavier and more stable and allows it to be wrinkle-free.. Despite this, the Punta di Roma knit has a bit of elasticity, which makes this fabric very comfortable to wear.

Customer review.

“Beautiful material and finishes. Bermuda shorts that are pleasant to wear in all circumstances, a color that goes well with the many high-quality braided belts. Well done Billybelt!” . - Sylvie

FAQ.

Is velvet warm?

Due to its relaxed cut and 100% breathable fabric, the shorts only look velvety. This trend spotted among Australian surfers was quickly adopted by our customers.

How to choose your shorts?

The First Horizon shorts (in cotton) take on the codes of chinos and their classic cut goes perfectly with all styles. While the Beach Horizon shorts (in velvet) are more trendy and will appeal to a younger and more daring target audience in their look.

“Excellent quality and durability” - Claire-Hélène

FAQ.

How high are your socks?

The vast majority of our men's socks have a mid-calf height (apart from ankle socks and mid-height socks), perfect in any season. The upper elastic provides optimal support, the sock does not fall on the ankle.

Who is the single size of socks suitable for?

Our men's socks are available in one size from 41 to 47 (FR size). The elasticity of the material (cotton or wool) adapts perfectly to the shape of the foot whatever the size. Note that over time, the mesh tends to tighten slightly.

Which range of socks are the warmest?

Wool socks, club socks and herringbone socks are the thickest ranges in our men's range. They are therefore ideal for keeping your feet warm all winter.

*“ Great shop, quality products. Fully satisfied” -
Pauline*

FAQ.

How high are your socks?

Our women's socks have an ankle height (except for ankle socks) to ensure comfort and style.

Who is the one size fits all for women's socks?

Our women's socks are available in one size from 37 to 40 (FR size). The elasticity of the material (cotton or wool) adapts perfectly to the shape of the foot whatever the size. Note that over time, the mesh tends to tighten slightly.

Do you offer suitable displays?

We offer 4 display formats:

- a metal display stand with 8 hooks,
- a tower display, in wood, to stand with 8 hooks,
- a large display in wood and metal to stand on the ground with . 24 hooks resto/verso,
- a large conical display to place on the floor or on a table with 24 hooks all around.

They can be offered according to purchase conditions.

Customer review.

“Excellent quality belts, solid braiding, solid reinforcements at each end and color exactly as described on site.” - Gandalf

FAQ.

Hundreds of colors: how to choose?

70% classic colors and 30% original colors: here is the perfect combination to attract a customer and reassure them in their purchase. Start with the bestsellers (plain navy blue, plain black, Bogota and Havana).

T0, T1, T2: what does this correspond to?

Braided belts cover several sizes and to find the best one, you can refer to the EU pants size. Size 0 corresponds to a pant size 34-38 (and is particularly suitable for women), size 1 corresponds to a size 38 to 44 and size 2 corresponds to a pant size 44 to 50.

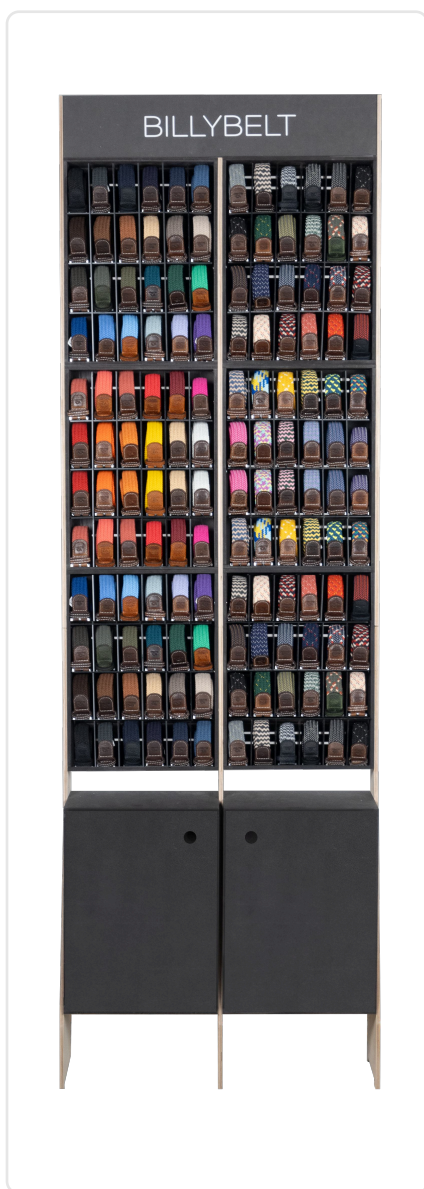

We generally recommend taking 2 sizes: one for 1 size 2 and add a few sizes 0 depending on the colors.

Why choose a woven belt?

The woven belt has the particularity of being infinitely adjustable: its buckle can be attached anywhere on the belt, unlike classic leather belts.

Related displays.

“Perfect size and you can directly recognize the quality of the product!” . - Léa

FAQ.

Which designs work best?

Animal or floral designs generally work very well during festive periods like Christmas or Father's Day because they make perfect original gifts. We recommend that you vary strong patterns with simpler or geometric patterns.

Boxers are generally too tight for me.

Our boxers have been designed to fit as closely as possible. For maximum comfort, we advise you to take one size larger than your usual size.

“These boxer shorts are of very good quality, with beautiful fabrics, they are original, organic and durable. Good value for money, I recommend!” - Camille

FAQ.

What is the integrated jockstrap used for? .

All our briefs have been designed for optimal comfort, day and night. They have an internal jockstrap allowing perfect intimate support and freedom of movement.

The belt is often too tight.

Slipped into the upper band of the boxer shorts, the elastic ensures support and comfort. No feeling of compression if you choose your usual size.

Customer review.

“Very nice item in a modern and masculine finish while maintaining the excellent Billybelt. quality”
- Stephane

FAQ.

Are travel bags allowed as cabin baggage?

As a reminder, the dimensions of authorized cabin baggage are 55X35X25cm, the BILLYBELT dufflebag can therefore be used as cabin baggage. But we recommend you to double check with the airline company to be sure.

Are they waterproof?

Our travel bags are not 100% waterproof but we have used a water-repellent coating and chosen a reverse zipper which limits infiltration.

Customer review.

“Super practical and functional, I recommend!” -
Liam

FAQ.

Do they have different interior compartments?

The interior part is composed of a large pocket, an elastic compartment on one side and two smaller compartments on the other side.

Are they water resistant?

Our wash bags are made from water-repellent recycled polyester and the zipper is protected by a flap. They are water resistant but are not completely waterproof.

Customer review.

“Super practical for carrying the essentials with you everywhere!” - Fabien

FAQ.

Do they fit in a jeans or pants pocket?

Coins can be stored in a dedicated compartment.

Do coin purses have a dedicated space to store coins?

Absolutely, they are perfectly suited to be carried in your pocket.

LABELS.

Traceability and organic cotton cultivation.

With the OCS label, we ensure cotton cultivation without GMOs, fertilizers or chemical pesticides. From planting to the final product, traceability is our priority.

Respect for the environment and working conditions.

We are proud to hold GOTS certification, guaranteeing environmentally friendly processes, improved working conditions and the use of fibers . biological.

**STANDARD
100**

Product safety and quality.

Oeko-Tex Standard 100 is our quality guarantee. More than 100 checks are carried out to verify the absence of substances harmful to health, thus ensuring the safety and quality of our cotton products.

Better cotton for people and the planet.

The BCI label aims to promote social and environmental improvement in cotton cultivation.
